

Norton 360 Standard

Choose to be safer online.

Norton 360 Standard provides powerful layers of protection for your devices and online privacy against viruses, ransomware, and other online threats as you bank, shop and post online.

Your personal information has protection at home or on-the-go with bank-grade encryption from Norton Secure VPN. It helps prevent cybercriminals from accessing your personal information when connecting to Wi-Fi, even public Wi-Fi.

Opt-in to Cyber Safety™

Award-winning cyber security

PC EDITORS' CHOICE[®] **48 TIME WINNER**
The Most Awarded Consumer Security Brand Ever by PCMag

Multiple layers of protection for your device and online privacy – all in a single solution.

Features

Device Security

Norton Device Security brings real-time protection for your PCs, Mac[®], smartphones or tablets against ransomware, viruses, spyware, malware and other online threats, monitors and helps block unauthorised traffic, and helps protect your private and financial information when you go online.

Secure VPN

Norton 360 Standard gives you the freedom to connect more securely to Wi-Fi when on-the-go. With a single click, Secure VPN gives you the power to secure your data each time you go online, even with public Wi-Fi. Your personal information is encrypted, helping prevent cybercriminals from intercepting your data over Wi-Fi and gaining access to your valuable, personal information.

Password Manager

Easily create, store, and manage your passwords, credit card information and other credentials online – more securely.

PC Cloud Backup

Automatic¹ cloud backup for PCs – to store important files and documents as a preventative measure against hard drive failures, stolen devices and even ransomware.

PC SafeCam

The webcam on your PC could be vulnerable to hacking. Get notified if cybercriminals try to use your webcam, and we can help block them.

System Requirements
