The Most Awarded Consumer Security Brand Ever by PCMag

## Protection for your connected world.

### Features

#### Device Security

Norton Device Security brings real-time protection for your PCs, Mac<sup>®</sup>, smartphones or tablets against ransomware, viruses, spyware, malware and other online threats, monitors and helps block unauthorised traffic, and helps protect your private and financial information when you go online.

#### Password Manager

Easily create, store, and manage your passwords, credit card information and other credentials online – more securely.

#### Smart Firewall for PC or Firewall for Mac<sup>®</sup>

Helps protect your device and data against malicious attacks and intrusive eyes by monitoring and blocking suspicious network traffic.

#### PC Cloud Backup

Automatic<sup>1</sup> Cloud Backup for PCs – to store important files and documents as a preventative measure against hard drive failures, stolen devices and even ransomware.
