

Norton 360 for Gamers

   iOS

Powerful cyber protection designed by gamers

Norton 360 for Gamers, advanced multi-layered protection for PCs. Helps protect against cyberthreats like malware and webcam takeovers¹. Includes VPN to help protect against DDoS attacks, doxing and SWATing.

Notifications are optimised to reduce message interruptions. In Full-Screen Mode⁴ all but critical security alerts are silenced. Plus, Game Optimizer dedicates CPU cores to the game for optimal play.¹

We'll also monitor your gamer tags and personal information for exposure on the dark web.[§]

Opt-in to Cyber Safety[™]

Gamers need more than just antivirus.

Features

Dark Web Monitoring[§]

The dark web is scanned for your personal information and you're notified if it's found. Monitoring includes: driver licence, email addresses, credit card numbers, gamer tags and more.

Game Optimizer¹

Maximises game performance by dedicating CPU cores to the game on PCs with multi-core CPUs.

Real-time Threat Protection

Multi-layered, advanced security helps protect against existing and emerging malware threats to your devices, including phishing attacks via email and security flaws in games and websites.

Full-Screen Detection²

It detects when you're using full-screen mode on your PCs, and silences all but critical security alerts

Password Manager

With player names, typically usernames, use Password Manager to help create, store and manage your passwords safely and securely across games.

Notification Optimisation¹

Non-critical alerts are suppressed. We will only notify you if your PC is under attack or your protection is at risk.

PC Cloud Backup^{1,3,4}

Automatic, secure Cloud Backup for PCs – store your game clips online⁴, freeing up space on your drives.

System Requirements

See <https://www.norton.com/sysreq> for the most up-to-date system requirements.

1. Norton Cloud Backup, Notification Optimisation, Gamer Optimizer and Norton SafeCam features are only available on Windows (excluding Windows 10 in S mode, Windows running on ARM processor). Game Optimizer requires 4 or more core processors.

§ Defaults to email address only. Sign in to your account to enter more information for monitoring.

2. To suppress most alerts for Windows, full-screen mode must be in use.

3. Requires your device to have an Internet/data plan and be turned on.

4. To activate backup of video files or game clips, you will need to configure your backup settings under My Documents to address your individual gaming needs.

No one can prevent all cybercrime or prevent all identity theft.
