

Norton Utilities Ultimate

Get the tools you need to get your PC running like new.

Is your Windows PC moving slow? Norton Utilities Ultimate provides you with tools to help clean and reinvigorate your PC to keep it running like new.

Norton Utilities Ultimate helps remove junk files and bloatware while streamlining your data for a faster response time. It boosts browsing speed while helping to clean and repairing your PC to help avoid slowdowns and crashes. It even helps recover lost or accidentally deleted files.

Cleans and helps speed up your PC.

Features

File Shredder

Helps you securely dispose of personal documents while preventing others access to them.

DriveScrubber[®]

Helps maintain your digital privacy by enabling you to erase your browser file downloads.

All-in-One PC Cleanup

Easy to use interface that lets you perform 1-Click Optimisation for your PC.

Automatic Care

Automated PC care that works when your PC is idle.

Registry Cleanup

Removes invalid and obsolete data to clean and streamline your devices registry.

NetBooster

Optimise your internet settings for the best speed and stability available based on your configuration using hidden Windows[™] internet settings.

Search & Recover

Search a specific folder, removable media, or your entire hard drive for accidentally deleted files and recover them to a new location.

System Privacy

Turns off Windows 10 features that share your Wi-Fi network connections with your contacts and collect information regarding your browsing habits, program usage and more.
